DO NOT ALLOW STANDING WATER TO SIT ON PRODUCT.

## **Quiet Dividers**

Carefully blot liquid spills immediately with a dry, white absorbent cloth or paper towel. For solids, allowed to dry, remove with cloth, gently brush and vacuum. Most stains will disappear when treated with a mild detergent. After the stain has been removed, rinse with a mist sprayer of cold water and blot until dry.

## **Trikes**

A soft cloth and a mixture of mild non-abrasive soap and water is usually enough to clean heavily soiled deposits from our products. Cleaners should be used as a last resort and be used only following the warnings and directions on the cleaner. To disinfect, Add 1/4 cup of bleach to 1 gallon of cool water or for a smaller amount you can mix 1 tablespoon bleach to 1 quart cool water.
