2021 Product Review

40
Years

2021 marks our 40th year of providing FUNctional Play Equipment and Classroom Furnishings! It all began in the attic of our founder's home all those years ago. Creating Soft Play products to help children grow physically and

emotionally through the power of play was the dream. Boundless passion, hard work and attention to detail, quickly transformed Children's Factory into a mainstay in learning spaces around the world. Since launching our original line of Soft Play products, we have thoughtfully expanded over the years to include the finest in early-learning furniture, floor coverings, trikes and multi-seat transportation. Each new product has been

intentionally designed to address specific milestones in the development of children. We've taken great care in selecting the ideal assortment of products to accommodate the ever-evolving needs of today's preschool classrooms while keeping the safety of precious little ones, our paramount concern. No matter how far the last 40 years have brought us, our goals remain largely unchanged: foster a compassionate, tight-knit work environment for employees, provide superior service to our valued customers, and always *sweat the small stuff*.

ACTIVE PLAY

the
healthy
life

Indoor playgrounds have fundamentally changed how the world perceives playtime. At Children's Factory, promoting the benefits of soft play equipment is our passion. Active play establishes connections between the brain and the body, leading to increased confidence and self-esteem. It reduces stress, releases mood-elevating hormones, and develops gross motor skills such as balance and coordination. Building positive habits directly impacts each child's emotional and physical health. Trends might change from year to year, but the benefits of active play are timeless.

Soft Climber FEATURES

- Thoughtfully designed to help children reach age-appropriate milestones in a safe, comfortable environment.
- Builds a child's self-esteem by encouraging them to explore and conquer!
- Filled with high-quality dense foam which is gentle on little elbows and knees
- Cover materials are easy to wipe clean

STORAGE SOLUTIONS

the
clutter-free
life

"A place for everything, everything in its place."

– Benjamin Franklin

Living the clutter-free life might seem nearly impossible but Children's Factory specializes in making the impossible possible. We provide storage solutions for every need: lockers, book displays, message centers, storage cabinets, toy storage units, and more. Many options are multi-functional. No matter how you combine pieces, a few truths are evident: clutter-free rooms increase safety by removing tripping hazards and positive habits are reinforced.

REST TIME

counting
sheep

“A day without a nap is like a cupcake without frosting.” – Anonymous

Most children benefit from a brain-boosting, refreshing power nap. At Children’s Factory, we strive to provide the most comfortable cots, rest mats and accessories to ensure kids don’t make it past the first sheep. Our options are easy to clean and store, which means transitioning from go-time to quiet-time (and vice versa) is effortless.

SpaceLine® Cot FEATURES

INDOOR/OUTDOOR PLAY

It's excruciating to be trapped indoors when it's sunny. Sooner or later, almost every child is forced to sit through an afternoon of lessons when all they really want to do is run outside and play. Why not indulge them? Children's Factory produces a variety of "Fun in the Sun" options so parents and caregivers feel confident their children are continuing to grow and learn – even when lessons are conducted outdoors.

Sand & Water Table FEATURES

- Durable plastic tubs allow kids to experiment with sand, water, Kidfetti® and more at just the right height.
- Adding play accessories such as spoons, rakes and buckets will help kids practice fine motor skills and hand-eye coordination.
- Sensory play is also found to support cognitive growth, problem solving skills and social interaction.
- Assembly required

MANUAL DEXTERITY

Imagine your life depended on your ability to place a fishing lure on a hook, so you could catch a fish for dinner. Now imagine you had to do it with thick mittens on your hands. Dexterity and other fine motor skills are incredibly important for kids to master. Children's Factory produces the tools youngsters need to effectively "take the mittens off" as they develop and grow.

ARTS & CRAFTS

The creative life is foundational. Art encourages neural connections to form as children experience the world and begin to bridge the mind-body gap. Fine motor skills are sharpened. Kids develop problem-solving abilities as they make choices, evaluate the results of each decision, then explore new options. Confidence skyrockets. Young minds open to the possibilities. Friendships are formed.

forging
a new
road

The Covid-19 crisis has fundamentally changed how society views peace and safety. The educational system didn't just come to a fork in the road in 2020. The road literally stopped. Forging a new road is never easy, but when it comes to our children, failure isn't an option. Everyday heroes working in schools all over the world jumped to embrace standard practices like social distancing and donning face coverings. They didn't miss a beat when asked to comply with enhanced cleaning regimens or teaching children through sneeze guards. Restoring peace and safety was, and is, too important. In 2021, Children's Factory will continue to support the educational system to overcome whatever new challenges are presented to our community.

Sneeze Guard FEATURES

- Designed to create separation between youngsters even when 6 foot social distancing protocols are not 100% achievable
- Light and easy to tote from space to space
- Protect children when sitting at individual desks or when working in groups at larger tables

GREENGUARD Gold Certified Products

Children's Factory, LLC has received GREENGUARD Gold standard certification. The GREENGUARD Gold standard includes safety factors to account for sensitive individuals, such as children, and includes requirements that a product is acceptable for use in school environments. In addition to limiting emissions of more than 36- VOCs and total chemical emissions, GREENGUARD Gold Certified products must also comply with requirements of the State of California's Department of Public Health "Standard Method for the Testing and Evaluation of Volatile Organic Chemical Emissions from Indoor Sources Using Environmental Chambers, Version 1.1 (2010)" (also known as California Section 01350).
