

Children's Factory is a premier supplier of early childhood classroom furnishings and indoor/outdoor play equipment. Our trifecta of trusted brands, Angeles®, Children's Factory® and Learning Carpets®, provide complementary product categories for educators, parents, and designers to easily create functional learning environments with a cohesive style. Offerings include a broad assortment of beautifully crafted storage solutions, seating options and floor coverings. Additionally, a unique line of play equipment encourages discovery, motor development, and social interaction. Over the years, these brands have become the first choice for those seeking to provide children with safe and inspiring play spaces.

DESIGNER RESOURCES: Quickly design the perfect early-learning space with our 2D and 3D product symbols. Symbols are currently available through ProjectMatrix, CET Designer, KITS Collaborator and My Resource Library. Dropbox access is also available to dealers. For more information, please contact sales@childrensfactory.com.

QUALITY: Our products are intricately designed and manufactured with the highest quality standards and rigorously tested by third party labs for safety. Indoor products are also GREENGUARD Gold certified to ensure a healthy indoor environment. When seeking peace of mind, you can trust the Children's Factory family of brands to deliver.

PRODUCT INNOVATION: Since launching our original line of Soft Play products, we have thoughtfully expanded over the years to include the finest in early-learning furniture, floor coverings, trikes and multi-seat transportation. Each new product has been intentionally designed to address specific milestones in the development of children. We've taken great care in selecting the ideal assortment of products to accommodate the ever-evolving needs of today's preschool classrooms while keeping the safety of precious little ones, our paramount concern.

COMMITMENT: 2021 marked our 40th year of providing FUNCTIONal Play Equipment and Classroom Furnishings. Creating Soft Play products to help children grow physically and emotionally through the power of play was the dream. Boundless passion, hard work and attention to detail, quickly transformed Children's Factory into a mainstay in learning spaces around the world. No matter how far the last 40 years have brought us, our goals remain largely unchanged: foster a compassionate, tight-knit work environment for employees, provide superior service to our valued customers, and always *sweat the small stuff*.
