Where Creative Learning Comes to Play

Children's Factory...the fun is in our name! Our days are spent building amazing furniture and colorful active play products for the enjoyment of children. What could be more rewarding than providing an outlet for kids to dream, play, and learn? Whether it's a room full of flexible seating choices, an art station to express feelings, or soft climbing shapes to explore, we obsess over even the smallest product details to ensure spaces are safe and welcoming so every child thrives!

Our trusted family of brands provides a one-source solution.

Design Solutions

Symbols are now available for many of our most popular items! If you would like to acquire symbols for use in your Room Planning software, please contact sales@childrensfactory.com for Dropbox access. Our symbols are also available through ProjectMatrix, CET Designer, KITS Collaborator, and My Resource Library.

Active Play

Soft Climbers

Thoughtfully designed to help children reach age-appropriate milestones in a safe, comfortable environment

Boosts a child's self-esteem by encouraging exploration while building gross motor skills

Filled with high-quality dense foam which is gentle on little elbows and knees

Covers are made from easy to clean vegan leather

Indoor use only

Sensory Play

Soft foam-filled play structures have a variety of stimulating elements for little ones including bells, squeakers, beads and mirrors

Assorted materials help babies learn through tactile experiences

Indoor use only

Ball Pools & Play Yards

Ball Pools feature thick walls held together with hook and loop fasteners. Walls also attach to an unpadded, vinyl floor to keep balls contained. Pools hold a sea of 2-3/4" diameter polyethylene balls

Play Yards also have thick walls with an unattached, padded mat to provide a comfy, clean play surface for little ones

Play Yards are not designed to hold balls. Indoor use only

Ball Pools and Play Yards are constructed from sturdy foam and easy to wipe clean vegan leather covers

Activity Mats

Padded foam mats offer tikes a cozy surface for individual play or small group activities

Provides a clean play surface for little ones

Colorful designs are either applique or sub-surface printed

Covers are made from easy to clean vegan leather

Indoor use only - All ages

Determining Seat Height

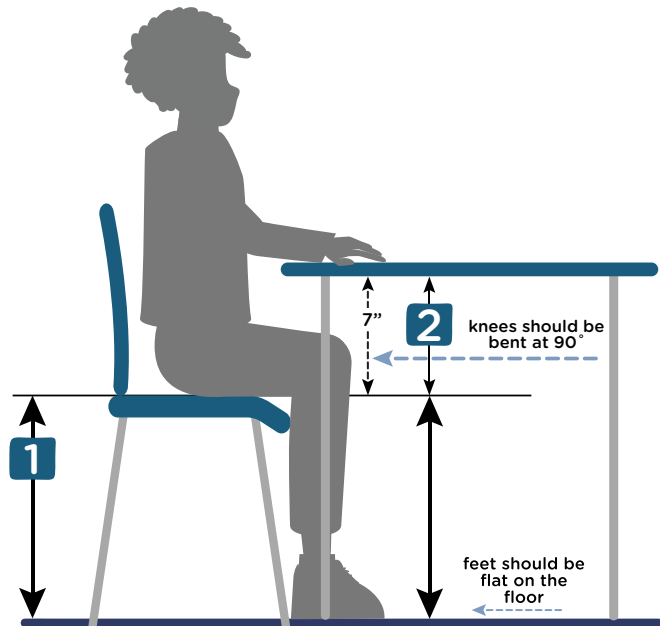

1 Choosing the Right Chair

The child should be able to sit comfortably with their feet flat on the floor, and knees bent at a 90°.

If the child's feet do not touch the floor the chair is too tall.

2 Determining Table Height by Chair Height

The distance between the seat of the chair and the under edge of the table should be 7 inches minimum.

Chair Seat Height Guide

Seat Height	5"	7"	8"	9"	10"	11"	12"	13"	14"
1 Year Old									
2 Year Old									
3 Year Old									
4 Year Old									
5 Year Old									
6-12 Year Old									

3 Flexible Seating

Flexible seating allows students to find an effective and comfortable seat. Depending on the product, seat rigidity will vary. This can affect recommendations regarding seat height to table height.

PlayPanels®

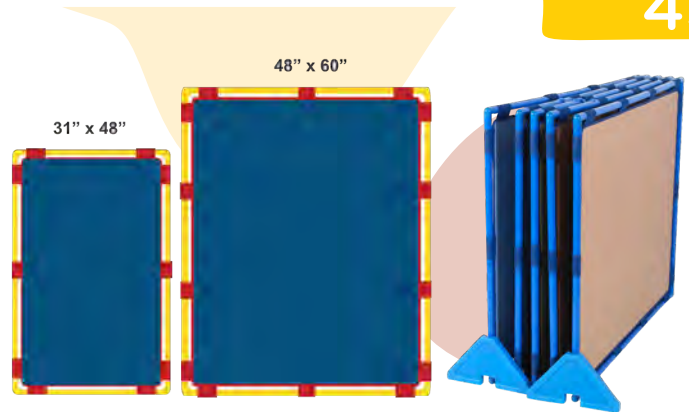

Lightweight PlayPanels® divide rooms into more functional spaces, allowing children to learn in smaller groups with less distraction

Included Double Claws create flexible hinges so panels can be attached to each other horizontally or vertically or collapsed for convenient storage

Vinyl panel has elastic loops which creates a secure and taut fit

Easy assembly with snap-together plastic pipe fittings

When ordering single panels, we suggest ordering 1 set of CF900-903 PlayPanel legs for every 3 panels

1. Choice - Empowering children to make small choices helps advance their decision-making skills. Start with an array of flexible seating options so each child can customize their learning space.

2. Comfort - To maximize learning potential, offering diverse flexible seating options will keep each child more comfortable, focused, productive and engaged in lessons.

3. Communication - Communication requires children to use active listening skills and be patient. Flexible seating builds the social, emotional, and problem-solving skills children need to thrive.

4. Community - Community or shared flexible seating options help kids learn the importance of taking good care of group resources and taking turns.

5. Collaboration - Teaching kids to work together in groups is pivotal to their development process. Flexible seats are light-weight, easy to move and designed to facilitate an inclusive, “pull up a chair” atmosphere.

Storage Solutions

Assembled Birch

Constructed from strong, 5/8" thick, 11-ply birch veneer panels

Non-warping, 1/4" thick woodgrain backs are recessed into side and screwed into place

Shelves are glued and doweled for extra strength

Units feature rounded corners and continuous hinges to prevent fingers from getting pinched

Surfaces are finished with a tough, scratch-resistant, easy to clean, UV finish, eco-friendly, water-based

Toe-kicks prevent objects from getting lost under units

Mobile units feature easy-roll casters that make moving a breeze

Limited lifetime warranty

Value Line™

Value Line™ Birch units are constructed from strong, 5/8" thick, 11-ply birch veneer panels with a high-quality UV finish, rounded corners and recessed 1/4" thick wood grain back panels

Value Line™ Melamine units are constructed from durable, 5/8" thick maple-faced melamine panels, rounded corners and recessed 1/4" thick wood grain back panels.

Tough UV and plastic laminate finishes are easy to clean and scratch and stain resistant

Units ship unassembled with clear instructions, tools and hardware for easy assembly

Limited lifetime warranty

Arts

Our Art products offer more than just mobility, creative learning and a cohesive look; they also offer a way to help you ACE different learning stages.

Art Projects - Give children the freedom to express themselves. Art pairs Social Emotional Learning opportunities with activities designed to build fine motor and bilateral coordination skills. Activities, such as grasping paintbrushes, using scissors, and manipulating arts and crafts materials improve hand dexterity and can even enhance a child's vocabulary during the process.

Communication - Children will naturally interact with their peers as they create their masterpieces. They will make decisions about what colors to use, discuss what the next steps in the process will be, and learn to communicate at a higher level.

Executive Functioning - Focusing on developing each toddler's executive functioning skills will impact many areas, including impulse and emotional control, memory, self-regulation, planning, organization, and task initiation skills. These skills can only be developed by giving children freedom in their artwork.

GREENGUARD Gold Certified Products

Children's Factory, LLC has received GREENGUARD Gold standard certification. The GREENGUARD Gold standard includes safety factors to account for sensitive individuals, such as children, and includes requirements that a product is acceptable for use in school environments. In addition to limiting emissions of more than 36- VOCs and total chemical emissions, GREENGUARD Gold Certified products must also comply with requirements of the State of California's Department of Public Health "Standard Method for the Testing and Evaluation of Volatile Organic Chemical Emissions from Indoor Sources Using Environmental Chambers, Version 1.1 (2010)" (also known as California Section 01350).
